

## Subject Index to Volume 9—1987

- Abrasion, diagnosis and therapy of, 5:12  
 Acquired immunodeficiency syndrome (AIDS), screening for, 1:5  
 Adolescent(s)  
   tobacco use in, 2:5  
   toothbrushing frequency, cleanliness, and smoking habits in, 1:18  
 AIDS related complex (ARC), screening for, 1:5  
 Antiinflammatory therapy, topical, against periodontal disease, 4:18  
 Attrition, diagnosis and therapy of, 5:12  
 Behavioral science, attitudes and perceptions toward teaching, 1:9  
 Bisexuals, screening for AIDS and ARC and, 1:5  
 Border molding, in impression making, 1:23  
 Calculus  
   effect of commercially-available dentifrices against, 4:3  
   effect of dentifrice containing soluble pyrophosphate and sodium fluoride on, 2:13  
 Canine, maxillary, replacement with etched metal resin-bonded prosthesis, 5:7  
 Children  
   anticaries effect of fluoride dentifrices in, 2:22  
   effect of fluoridated milk in, 4:23  
   width of facial attached gingiva and depth of gingival sulcus in, 1:14  
 Chlorhexidine gluconate, antiplaque effect of, 6:3  
 Cleanliness, toothbrushing frequency and smoking habits and, 1:18  
 Cleft palate appliance, pin-retained, 3:9  
 Cotton gauze, efficacy as oral hygiene device, 2:9  
 Cotton swabs, efficacy as oral hygiene device, 2:9  
 Custom trays, in impression making, 1:23  
 Demineralization, of fluoridated root surfaces, 5:23  
 Dental care, in U.S. Air Force, 6:21  
 Dentifrice(s)  
   commercially-available, anticalculus effect of, 4:3  
   fluoride, anticaries effect in children, 2:22  
   pyrophosphate/copolymer, anticalculus effect of, 4:3  
   zinc citrate, anticalculus effect of, 4:3  
 Denture(s)  
   laboratory and physiologic post-palatal seal and, 4:26  
   reducing postoperative visits and, 6:26  
   self-repair kit for, 4:14  
   systematized complete delivery of, 5:28  
   wax try-in and characterization of complete denture set-up and, 3:27  
 Denture construction, impression making for, 1:23  
 Detectable preclinical phase (DPCP), of AIDS and ARC, 1:5  
 Education, attitudes and perceptions toward teaching behavioral science and, 1:9  
 Enamel, dissolution of phosphorus from, fluoride pretreatment and, 5:3  
 Erosion, diagnosis and therapy of, 5:12  
 Etching time, time of application of fissure sealants and, 2:17  
 Facebow transfer, maxillo-mandibular registrations and, 2:25  
 Fissure cleansing technique, SEM study of, 4:9  
 Fissure sealants, parameters affecting time of application of, 2:17  
 Floss  
   design of, plaque removal and, 3:3  
   effectiveness of, in reduction of plaque and gingival inflammation, 3:18  
 Fluoridated milk, 4:23  
 Fluoride  
   compliance by health care providers with protocol for supplementation with, 5:19  
   demineralization and remineralization of root surfaces and, 5:23  
   dissolution of phosphorus from human enamel pretreated with, 5:3  
   effect on calculus, 2:13  
 Fluoride dentifrices, anticaries effect of, in children, 2:22  
 Foam toothbrush, efficacy as oral hygiene device, 2:9  
 Geriatric patients, preventive care for, 3:23  
 Gingiva, facial attached, width of, 1:14  
 Gingival sulcus, depth of, 1:14  
 Gingivitis  
   effectiveness of floss, interdental brush, and rubber-tip stimulator for reducing, 3:18  
   tongue brushing versus tongue scraping and, 6:13  
   wooden interdental cleaners in reduction of, 6:17  
 Gravimetric measurement, comparison with Silness-Loe Index, 6:9  
 Health care providers, compliance with recommended systemic fluoride supplementation, 5:19  
 Hemophiliacs, screening for AIDS and ARC and, 1:5  
 Homosexuals, screening for AIDS and ARC and, 1:5  
 Immunocompromised patients, nonbrushing oral hygiene devices for, 2:9  
 Impression making, 1:23  
 Interdental Bleeding Index, 6:17  
 Interdental cleaners  
   brush, effectiveness of, in reduction of plaque and gingival inflammation, 3:18  
   wooden, in gingivitis reduction, 6:17  
 Intravenous drug users, screening for AIDS and ARC and, 1:5  
 Laboratory seal, 4:26  
 Lemon-glycerin swabs, efficacy as oral hygiene device, 2:9  
 Maxillo-mandibular registrations, 2:25  
 Milk, fluoridated, 4:23  
 Mortality, in AIDS and ARC, 1:5  
 Muscle trimming, in impression making, 1:23  
 Nonbrushing oral hygiene devices, efficacy of, 2:9  
 Patient acceptance, of tongue brushing versus tongue scraping and, 6:13  
 Patient education, denture fitting and, 5:28  
 Periodontal disease  
   diagnostic and therapeutic aspects, 3:13  
   topical antiinflammatory therapy against, 4:18  
 Phosphorus, from human enamel, dissolution of, fluoride pretreatment and, 5:3  
 Physiologic post-palatal seal, 4:26  
 Pin-retained cleft palate appliance, 3:9  
 Plaque  
   comparison of Silness-Loe Index with gravimetric measurement of, 6:9  
   effectiveness of floss, interdental brush, and rubber-tip stimulator for reducing, 3:18  
   effect of toothpaste containing *Salvadora persica* or chlorhexidine gluconate against, 6:3  
   removal of, floss design and, 3:3  
   tongue brushing versus tongue scraping and, 6:13  
 Polymerization, time of application of fissure sealants and, 2:17

- Postoperative visits, reducing, 6:26  
 Preventive care  
   for geriatric patients, 3:23  
   in U.S. Air Force, 6:21  
 Prosthesis, etched metal resin-bonded, 5:7  
 Pyrophosphate, soluble, effect on calculus, 2:13  
 Pyrophosphate/copolymer dentifrice, anticalculus effect of, 4:3
- Quigley-Hein plaque index, 6:3
- Remineralization, of fluoridated root surfaces, 5:23  
 Root planing, atypical response after, 3:7  
 Root surfaces, fluoridated, demineralization and remineralization of, 5:23  
 Rubber-tip stimulator, effectiveness of, in reduction of plaque and gingival inflammation, 3:18
- Salvadora persica*, antiplaque effect of, 6:3  
 Scaling, atypical response after, 3:7  
 Scraping technique, fissure surfaces conditioned with, 4:9  
 Selective pressure philosophy, in impression making, 1:23  
 Silness-Loe Index, comparison with gravimetric measurement of plaque, 6:9
- Smoking habits, toothbrushing frequency and cleanliness and, 1:18
- Table Clinician Program, 5:17  
 Technique, colleagues' tips on, 5:17  
 Tobacco use, in adolescents, 2:5  
 Tongue brushing, tongue scraping versus, 6:13  
 Tongue scraping, tongue brushing versus, 6:13  
 Toothbrush, foam, efficacy as oral hygiene device, 2:9  
 Toothbrushing, frequency of, cleanliness and smoking habits and, 1:18  
 Toothpaste, containing *Salvadora persica* or chlorhexidine gluconate, compared, 6:3  
 Tooth selection, using typal matching method, 3:27  
 Total preclinical phase (TPCP), of AIDS and ARC, 1:5  
 Typal matching method, for tooth selection, 3:27
- United States Air Force, quality of dental and preventive care in, 6:21
- Wax try-in, for dentures, 3:27  
 Wooden interdental cleaners, in gingivitis reduction, 6:17
- Zinc citrate dentifrice, anticalculus effect of, 4:3

## Author Index to Volume 9—1987
